The bold ambition behind Plan S is to ensure that full open access to published research finally becomes a reality. Yet, what does it mean for the future of research?

Join us for this international event at KU Leuven, where our distinguished panels of experts will debate the prospects for researchers, universities, learned societies, academies and publishers.

The conference is free and open to all and includes a welcome reception at the historic University Library on the evening before the conference.

The conference venue: The Leuven Institute for Ireland in Europe
